Step Two... Make a Landing Page

SearchEstate is a revolutionary search engine that provides users with their own webpage and free advertising.

I highly recommend that you use SearchEstate as your search engine. SearchEstate is dedicated to only providing search results that are legit.

So if you are ever skeptical about buying from a website then do a search for it on SearchEstate to see if they show it as a result. Only a great search engine would go so far as to filter the crap out... I mean how much time do you waste looking at crap??? Too much, so save yourself some time and start using SearchEstate.

They also go so far as to give you your own webpage and free advertising! To learn more about SearchEstate and what they offer, I highly recommend that you watch their video presentation. You can watch it at this link:

http://affiliate.searchestate.com/fl/fl01/SEVideo_1_Introduction.htm

If you watched the presentation you know that SearchEstate has a remarkable referral program, one that has the potential to make you a substantial amount of income alone. In order to take full advantage of their referral program you must become a paid member. It is not necessary to register as a paid member unless you are very serious about getting referrals.

Well anyway, **sign up for a SearchEstate account** and make a home page for yourself that promotes the referral links to the pay per post communities you joined as well as the traffic exchanges.

**THIS LANDING PAGE WILL BE YOUR 24/7
REFERRAL GENERATING MACHINE!**

Check out my landing page to get an idea of what your page can look like. You can even copy my page if you want, just be sure you replace my referral links with your own.

**CLICK THE LINK BELOW FOR AN EXAMPLE OF WHAT
YOUR LANDING PAGE SHOULD LOOK LIKE**

<http://my.searchestate.com/mysite.aspx?f=/mn2326088.htm>

After you have made your landing page, put it as your homepage on your pay per post profile page on every pay per post community you joined. You will put it as your home page in every account you have signed up for.

Now when anyone visits your profile page they will see that you have a home page. The best place to get referrals to the pay per post communities that you joined is at the pay per post sites. **Pay per posters are always looking for more pay per post sites to join and will be hungry for your links.** Pay special attention to the Webmastersroom.com program as members here are **ESPECIALY** hungry for your referral links.

Think of it this way, the more exposure your landing page gets, the more referrals you will get! **More referrals = more money** for you! **So post this page anywhere you can.**

There are many ways you can promote your landing page, many of which I will show if you subscribe to my blog!

So for this step you should have:

- Signed up for SearchEstate
- Created a landing page
- Placed the link to your landing page on your profile page in each pay per post community you joined where you are asked for a home page

Want to turn your referrals into GOLDMINES?

If you would like your referrals to make you even more money then please refer them to my blog. By referring them to my blog you will be exposing them to the same tips and strategies you have been exposed to which will in return turn your referrals into GOLDMINES.

Why not get the most out of your referrals?

Refer them to my blog!

Step Three... Use Del.icio.us

Del.icio.us is a social bookmarking tool that you will use to keep track and promote all of your links. People on Del.icio.us enjoy checking out what other people are bookmarking, so it not only is a great tool, it also can get you some extra traffic to your landing page.

Go ahead and bookmark all of these pages to Del.icio.us so that you can refer to them later on.

Links to bookmark...

- Your referral links for each of the pay per post communities you joined
- Your referral link for TrafficSwarm
- Your referral link for Hitpulse
- Your SearchEstate landing page
- <http://my.searchestate.com/uws/mn2326088.htm>
- http://www.thebilleverd.com/my_plot_for_mylot
- And <http://www.myplotformylot.com> for future reference

You will be visiting these links frequently, so be sure to bookmark them all to your Del.icio.us account!

Step Four... Get Some Referrals!

Remember joining those traffic exchanges??? Well... now its time to use them.

You are going to advertise your landing page in them, so sign in to your trafficswarm and hitpulse accounts and add the link to your landing page.

Traffic exchanges will get your site seen by others that are using the same exchange.

They are fairly simple to use, just add the link to your landing page and start earning points! Each point you earn will get you another person viewing your landing page!

You may be thinking that advertising on a traffic exchange is worthless, but let me assure you that **you will be surprised at how many people sign up for programs they find in them.**

You will want to send as much traffic to your landing page as possible, which means you will have to earn a lot of traffic points.

Make it a daily task to earn at least 50 points a day on at least one of these traffic exchanges.

Subscribe to my blog if you would like to learn the many other ways you can get referrals!

You are almost done! Only one more step to go!

Step Five... Start Posting!

So you have accounts with **10 pay per post communities**, that's **TEN** pay per post communities!

These sites will pay you to start discussions and contribute to discussions that have already been started. These sites are set up like forums, **all you need to do to make money is dive right in and start posting.**

Before you start a discussion though, **I recommend that you read the site guidelines**, why you may ask? You don't want to get kicked out do you? Make sure you know what type of topics are permitted before you even start thinking about what you can write about. If you don't read the guidelines, then just use common sense as to what you write, keep it clean and nice and you should get by without offending anyone.

Many people spend hours upon hours a day writing 50+ posts in order to make about \$2.00 a day. Well, you can take that approach, but heck, that is a lot of writing and a lot of time.

What if I told you that you could make the same amount of money by writing less and spending less time? Well... YOU CAN!

Here is how you can do it...

- **Write 10 different posts that you will use to start discussions...** take those posts and copy them to each pay per post community you joined.

You joined 10 pay per post communities and you have 10 posts ready to copy to each community.

10 posts @ 10 communities = 100 posts!

Wow... that's 100 posts! You just took 10 posts and turned them into 100!

You just copied and pasted your way to 100 posts!

Just write 10 posts and then copy and paste them to each pay per post forum, it couldn't be simpler. This is a time saving tip that has the potential to make you more money than you would if you just spent hours writing different posts on each site.

Now obviously I'm not telling you how you can write great money making posts, if you want to know how then **you will need to subscribe to my blog:** <http://www.feedburner.com/fb/a/emailverifySubmit?feedId=654167>

There are many more tips as to how you can **boost your earnings EASILY** on these pay per post sites. **If you want to learn these tips then feel free to subscribe to my blog:**
